Subject: FIR Application for Domestic Abuse, Harassment, and Mental Instability

Respected Sir/Madam,

I, Ali Imran Adil, son of Khurshid Akram, residing at Raniganj, Near Sunita TVS showroom, would like to bring to your notice the following grievances and incidents of harassment and abuse I have been facing from my wife, Minhaj Pravin, and her parents (father, mother, and her siblings).

1. Harassment and Abuse:

- My wife frequently goes out without informing me about her whereabouts, causing me distress and concern. Despite multiple requests, she continues this behavior, undermining our mutual trust and respect.
- She has been verbally abusive towards me, often using cuss words and derogatory language. I have evidence of her abusive language in chat messages, which I can provide upon request.

2. False Allegations:

- My wife, supported by her parents, has been falsely accusing me of domestic violence to malign my reputation and cause undue stress. She has also falsely implicated my family members, causing immense distress to my family.

3. Mental Harassment:

- The continuous harassment, false allegations, and abusive behavior have severely affected my mental well-being. I am unable to focus on daily activities and job responsibilities due to the constant stress and anxiety.

- In a recent event, my wife went outside without my permission, threatened and cussed at me, then switched off her phone guided by her parents. Her father and brother then called and texted me, pretending not to know her whereabouts to further harass me. I have proof of these incidents in chat messages and call recordings.

4. Mental Instability:

- I believe my wife's mental condition is unstable, based on video, audio, and chat evidence indicating erratic behavior. I am concerned about her well-being and potential risks due to her instability.

5. Effect on My Son:

- We have a 4-year-old son whose mental state is being affected due to his mother's behavior. As a small child, he always goes with his mother, and her actions and instability are impacting his emotional and psychological well-being.

Given the severity of the situation, I humbly request you to take immediate action against my wife and her parents. I am ready to cooperate fully with the investigation and provide necessary evidence to support my claims.

I kindly request you to register this complaint as an FIR and initiate an investigation. Your prompt action will be greatly appreciated and will help in ensuring justice and protecting my rights and dignity.

Thanking you,
Yours sincerely,
Ali Imran Adil
